

What is the meaning of the nine marked fields?:

- (1) Let's save the National Astronomical Observatory – Rozhen.
- (2) From: The Bulgarian Astronomical Society and all friends of astronomy in the country and abroad.
- (3) Signing the petition.
- (4) It is desirable to fill in with Cyrillic characters. (Don't care!)
- (5) Three names (if you have more or less names write what you find appropriate)
- (6) City
- (7) Country (State)
- (8) Comment
- (9) The E-mail address is not shown on the page with signatures, it is only used for confirmation of your vote. Several minutes after signing the petition you will get an email with a link for confirmation. After opening this link your vote will be added to the petition.

Below these fields you will see a graphically presented code which should be entered in the next field. At the end there is a button “Подпиши” which means “Sign”. That is all. As usual only the fields marked with “*” are obligatory.

Thank you for the support!
